THE GAP

Most concierge stacks fall apart at the bar.

Property managers route guests to grocery delivery (which can't legally deliver alcohol in Texas), book a separate bartender, or leave it as a guest problem. The result is a hospitality gap that costs reviews and revenue.

WHAT POD HANDLES

One vendor. The whole bar program.

- 01 **TABC-licensed delivery**
Beer, wine, spirits, mixers, ice. ID checks at handoff.
- 02 **17 pre-batched signature cocktails**
Texas spirits + Fresh Victor mixers. Plus mocktails.
- 03 **Bartender coordination**
Vetted, scheduled, supplied. Setup & breakdown.
- 04 **Lake delivery + same-day restock**
Travis, Austin, LBJ, Paradise Cove. Dock or door.

THE LEGAL DIFFERENTIATOR

We hold the **TABC license**.
You hold zero liability.

In Texas, alcohol delivery requires a TABC license, ID verification, and proper insurance. POD carries all three — so you can offer concierge alcohol service to guests with no exposure.

HOTEL-GRADE PRESENTATION

What guests pour into their glass.

This is what shows up in their photos — not a red Solo cup. Real glassware, fresh garnishes, mixed properly. Your reviews will mention it.
